

## Job 11 • Using Truth to Hide Opinion

---

1. (v.1-6) We are not “ministering” if we have already judged someone guilty. This is often betrayed when we are more desirous of God’s judgment than mercy.
2. (7-12) We have to be careful of preaching truth that does not actually apply to the situation. This is often betrayed when we are more concerned to get out the message than to address the need.
3. (v.13-20) We have to be careful not to proceed from the wrong assumptions to begin with. This is often betrayed by the tendency toward giving the same advice regardless of the circumstances.
