

## Isaiah 43 • The Coming Redemption of Israel

---

1. (v.1-7) What began here has **repeated** itself throughout history, and has a final **fulfillment** to come in the End Times. God is not through with **Israel** yet. What happened **then** will happen **again**.
2. (v.8-13) There is no **salvation** for anyone apart from it being effected by **God** and **God** alone.
3. (v.14-21) God's plan of **salvation** – while giving a primary role to **Israel** – is for all **mankind**.
4. (v.22-24) While there is a “**one-time**” component to initially coming to God, the biblical definition of salvation is adhering to and walking in God's **ways**, forsaking the sin of the **old** life for obedience to the **new**. What was initiated has to be carried out each and every **day** going forward.
5. (v.25-28) There is a final work of redemption yet to come both to **Israel** and through them to the **world** as outlined in End Times Scripture.
