

## Luke 10 • Three Viewpoints of the Gospel

---

1. (v.1-16) Signs and wonders accelerate the direction toward which a heart is already headed, whether toward Christ or toward judgment.
2. (v.17-24) The Gospel is a blessing to those who accept it and judgment for those who reject it.
3. (v.25-37) Doctrine – God’s Word – must always be applied to real-life because God’s Word is ultimately about relationships, whether it is our love for God or our love for others.
4. (v.38-42) What we do with Christ is more important than what we do for Christ because submission is what ultimately leads to obedience and service.
